**COURIER DELIVERIES:**

An urgent letter was sent to all clients on 19 April 2007 advising of the procedure to adopt in case of short box deliveries. Please note the following salient information :

Should a courier attempt to deliver fewer boxes than are indicated on the waybill, please refuse to accept such a delivery and instruct the courier to retain the boxes until those which are missing have been recovered. Check that the return delivery carries the full complement of boxes stated.

If a short delivery is accepted and signed for then the client will have to assume full responsibility for the missing boxes! Please ensure that your staff are aware of this.
